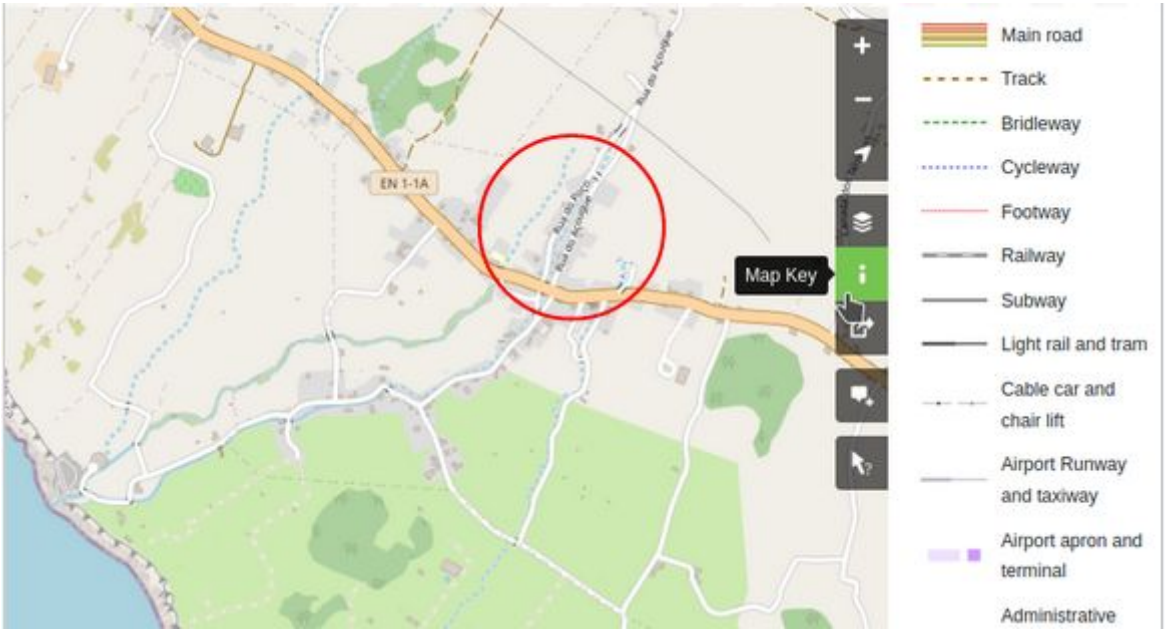
## We check the region where we have in mind to map

We will map our first building in Santa Barbara, Terceira

1. we open the following link:
   https://www.openstreetmap.org/#map=16/38.6949/-27.3336



The map shows a lot more as we saw until now.
Therefore - as every map - OSM offers a “legend”. For end uses they call it “Map key”.
.
You find the “legend”, clicking on the “i”. When you click on it it changes the colour to green.

You know meanwhile, - OSM-wiki is our friend -
therefore some links to map features.

| | |
|---|---|
| all features | https://wiki.openstreetmap.org/wiki/Map_features |
| landuse | https://wiki.openstreetmap.org/wiki/Map_features#Landuse |
| rural - agricultural landuse | https://wiki.openstreetmap.org/wiki/Map_features#Common_Landuse_Key_Values_-_Rural_and_agricultural_land |

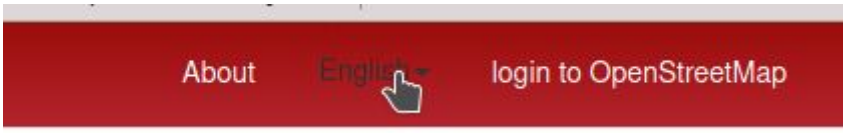
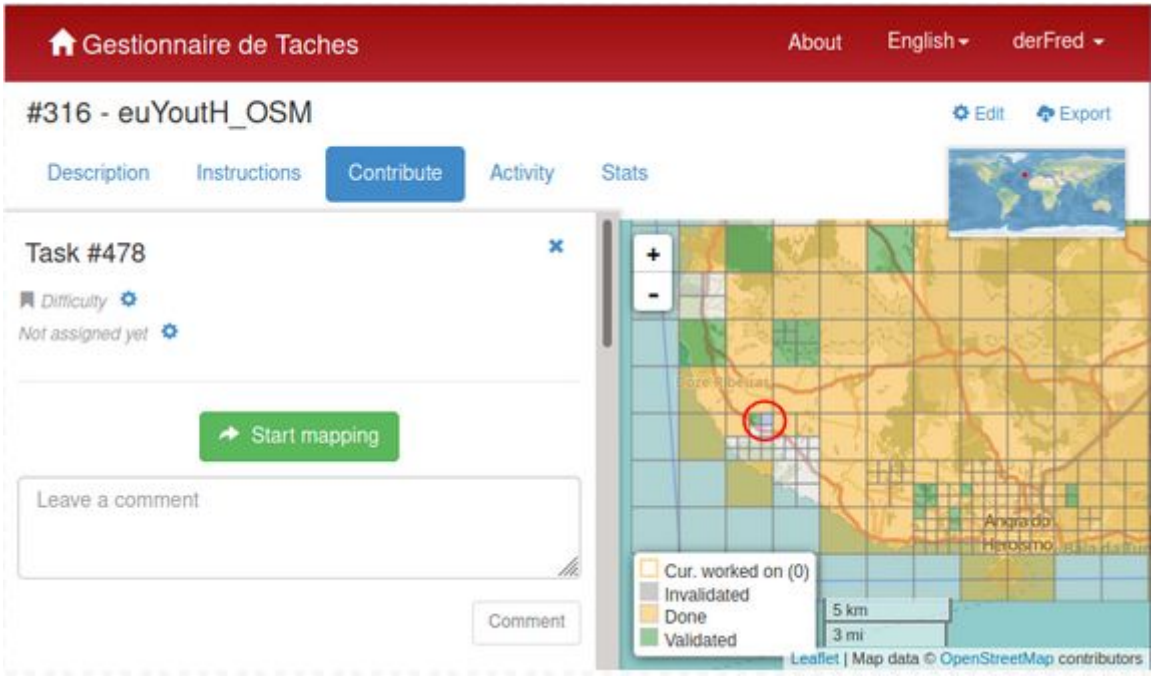
## We open the OSM data in JOSM via the Tasking Manager

1. We start **JOSM**
2. We open in a browser the tasking manager: http://taches.francophonelibre.org/project/316 #316 is the Project
3. We must login with OpenStreetMap

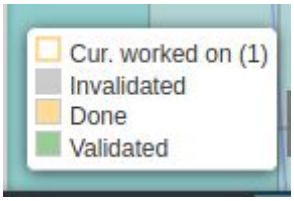


4. We click on **Contribute** and click a task to select it (see the one in light blue)



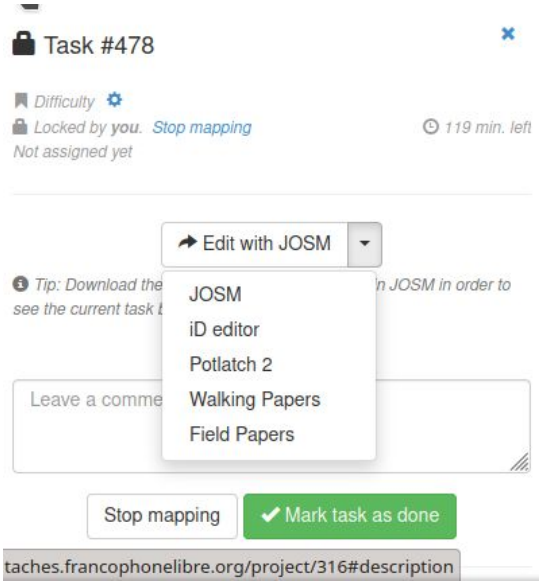
- see in our mapping activity in Terceira it is **task #478** in the project #316

please observe:

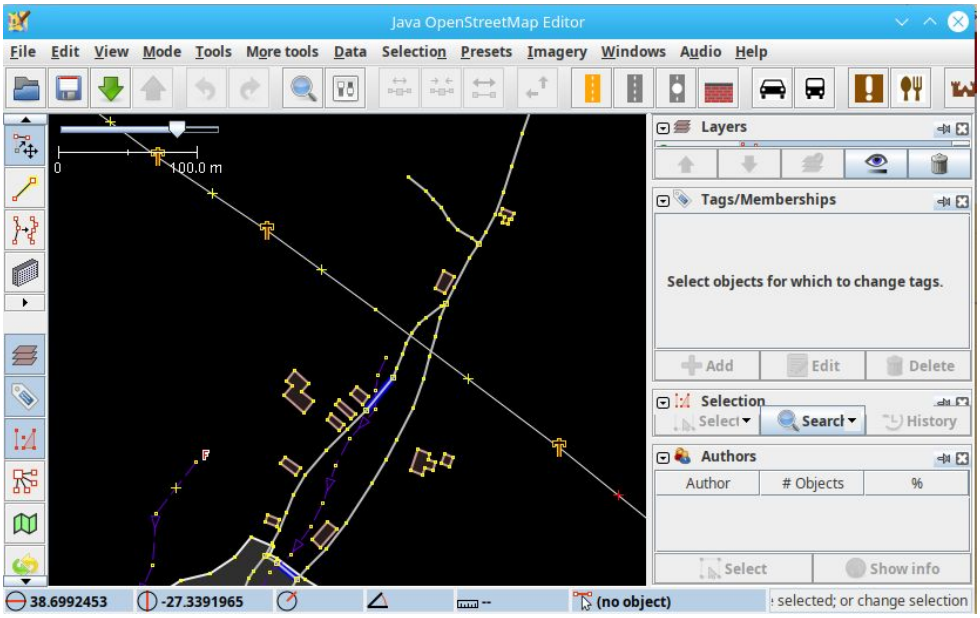


© CC BY

5. Now we click **Start Mapping**

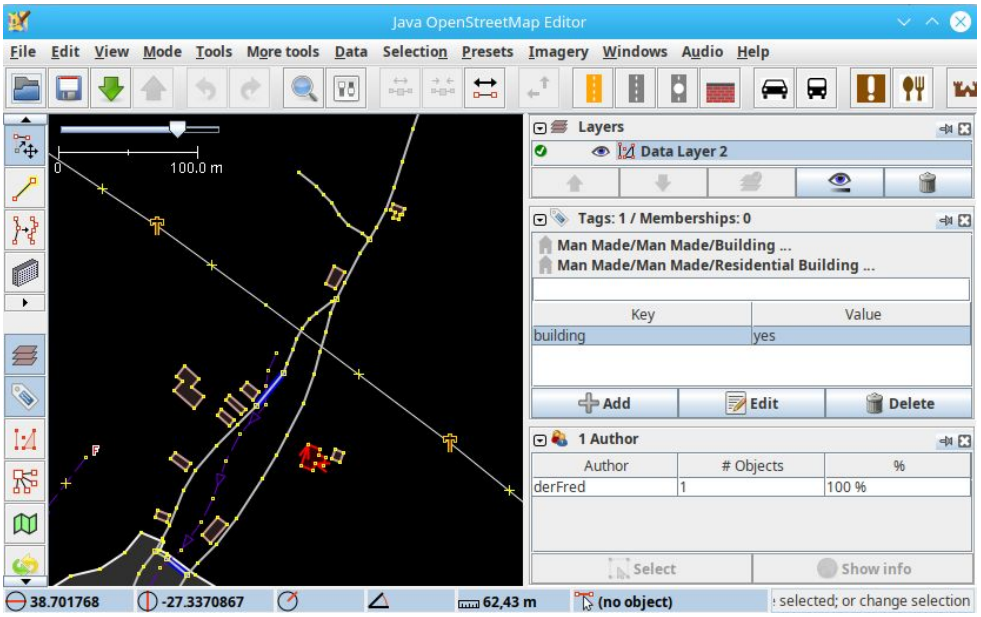


6. and we move the cursor to **JOSM**, click on it …. and … here the OSM data appear in JOSM



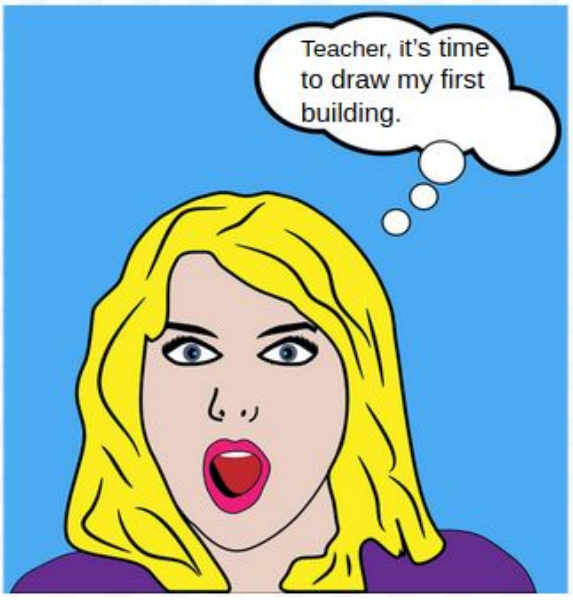
© CC BY

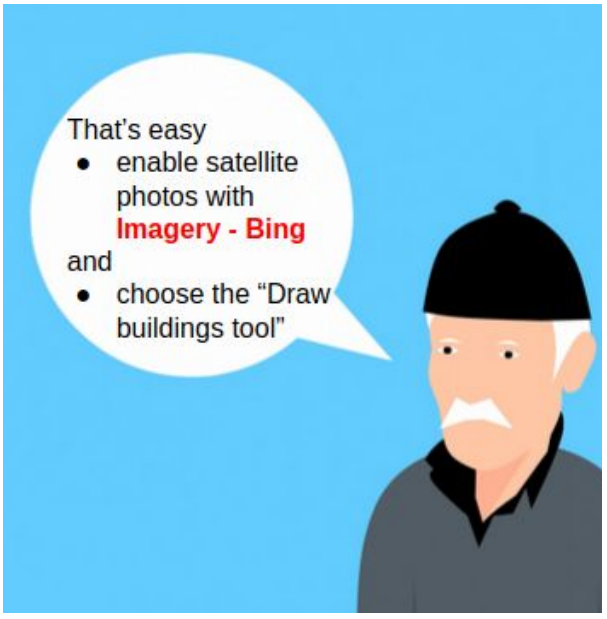
7. We select a **building by clicking on it**, and we see



the tag and

who did it





# Mapping JOSM/Tasking Manager

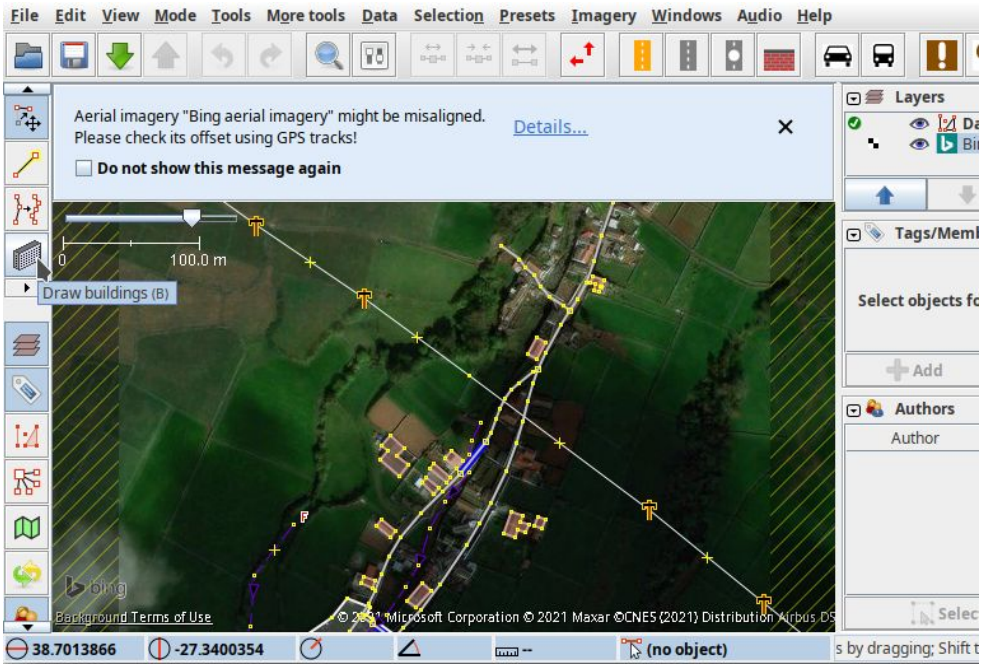
we map in Terceira

mapathon Erasmus+ euYoutH_OSM and UN mappers

© CC BY

- Imagery
- Bing

switched on



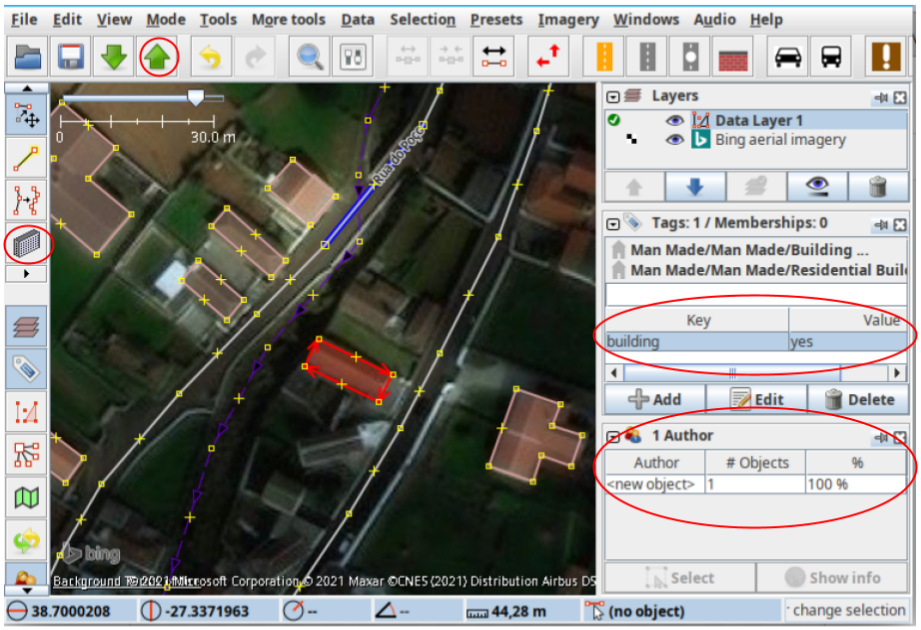
we scroll with the mouse wheel closer

and we click on the

“Building tool”
and draw a building

The tag with the key and the value is done automaticalley by the “Building tool”

Upload to database



The Information the author appears directly. The building now exists an the map as well.
